Otolift Stairlifts

Royal Otolift Stairlifts

Stay independent at home with an Otolift stairlift.

When climbing the stairs becomes more difficult, your staircase can turn into an obstacle. At Otolift, we understand how important it is for our customers to stay in their familiar homes for as long as possible.

✓ **Accessibility**

Our stairlifts make stairs safe again, ensuring that all floors of the home remain accessible.

✓ **Customization**

Since every situation is unique, we create each stairlift to measure, fully tailored to the customer's wishes and needs.

an Otolift is being installed somewhere in the world

240.000

satisfied customers

Since 2016

Royal Otolift Stairlifts.

In 2016, King Willem-Alexander decided to grant Otolift the Royal Warrant. From that moment, the company's name changed to Royal Otolift Stairlifts, and a crown was added to the logo. The Royal Warrant symbolizes the respect, appreciation, and trust the King has in Otolift.

Stairlifts through the years

The history of Otolift.

Since its founding as a blacksmith shop in 1891, Otolift has evolved into the largest stairlift provider in the Netherlands. What hasn't changed over the years is our commitment to assisting customers to the best of our ability.

Global reach

Otolift Worldwide.

Otolift supplies stairlifts in over 45 countries and is a trusted partner globally. With a strong network of dealers and branches, we ensure the same high quality and service everywhere. Check the map to see where Otolift is active and discover how we make homes accessible worldwide.

Factory in the Netherlands

Our factory in Bergambacht is where all components come together.

Factory in Slovakia

The components are manufactured in our factory in Slovakia.

Factory in the Netherlands

Factory in Slovakia

Innovation since 1891

Production driven by innovation: cobots.

With the integration of cutting-edge technology like collaborative robots (cobots), scanbunkers, and RFID systems, our production line is not only highly efficient but also fault-proof. This innovative approach guarantees that each part is meticulously crafted with precision and care, adhering to the highest quality standards. Our commitment to quality extends beyond design – it's ingrained in every step of our production process.

Meet the

Modul-Air Smart: the revolution in stairlifts.

Since its founding as a blacksmith shop in 1891, Otolift has evolved into the largest stairlift provider in the Netherlands. What hasn't changed over the years is our commitment to assisting customers to the best of our ability.

✓ Obstacle detection

The stairlift is equipped with advanced sensors that detect obstacles on the staircase. If an obstacle is detected, the stairlift stops automatically. This ensures a safe and comfortable ride.

✓ Smart battery system

Thanks to the smart battery system, the stairlift can still be used during a power outage.

- 1 Customization with innovative modules
- 2 Thinnest single rail in the world
- 3 Smart dashboard
- 4 Ergonomic chair
- 5 Automatically rotating seat
- 6 Automatically folding footrest

Smart design

Foldable foot and armrests.

The Otolift Modul-Air Smart is specifically designed to keep your staircase accessible, even in the smallest spaces. Its sleek and compact design ensures the stairlift takes up minimal room, allowing the stairs to remain easily passable for others.

The smart folding mechanism enables the armrest and footrest to be effortlessly folded away, saving space while providing maximum ease of use. The Modul-Air Smart blends seamlessly into any interior and offers a practical, stylish solution for every staircase.

Smart technology

Reverse Drive Technology.

The stairlift can be equipped with Reverse Drive Technology. This technology, developed by Otolift, allows the chair to move partially or fully backward while ascending. On narrow staircases, this prevents you from bumping into walls or ceilings. A chair with Reverse Drive Technology can be installed on staircases as narrow as sixty two centimeters wide.

Smart technology

Smart dashboard.

The Modul-Air Smart features a unique smart dashboard embedded in the armrest, offering users a live display that shows the current status of the stairlift.

Battery level

The Otolift Modul-Air Smart always displays the battery level on its dashboard, even during a power outage, ensuring the stairlift remains reliable and safe to use.

Emergency call system

The Otolift Modul-Air Smart can be equipped with an emergency call system for added safety. In case of a malfunction or emergency, help can be activated with the press of a button.

Status of the stairlift

The display provides an at-a-glance view of the stairlift's status, including the charging level and any error messages, ensuring simple and clear operation.

Otolift Modul-Air Smart

Choose your upholstery and rail color.

The Otolift Modul-Air Smart offers the flexibility to customize upholstery colors to match various interior styles. With a wide range of stylish upholstery colors, the stairlift can be perfectly tailored to meet customer preferences. This ensures the stairlift is not only a practical solution, but also an aesthetically pleasing addition to any home.
